

Trelles Pharmacy Management Inc.

Why Trelles Pharmacy?

Trelles Pharmacy is very pleased to present an overview of the services and benefits provided by our company. We go above what the majority of pharmacies normally provide to assisted living facilities and independent residents. Below is an overview of the services that Trelles Pharmacy is prepared to provide to our partner facilities and their residents. Trelles has over 10 years of experience serving the needs of Assisted Living facilities throughout Central Florida. Through the years we have earned an excellent reputation for the level of service we provide to both our facility partners and our resident customers. Our staff prides itself on its ability to deliver to you exactly what the doctor orders in a timely manner and at a fair cost to you and your residents.

For more detailed information Call us at Trelles Pharmacy.
